

ATLANTIC COMMUNITY & POLICY CHATS
PRESENT

TECH TITANS:

A TRANSATLANTIC WAY FORWARD

*Join our **policy competition** today and have the chance to present your ideas in front of high-ranking transatlantic policy-makers!*

This **policy competition** provides a new generation of thinkers with the opportunity to present and discuss their ideas to and with key transatlantic decision makers.

Alone or in a team of up to three people, you create a **brief policy memo** on how transatlantic governments or organizations should deal with "Tech Titans" such as Google, Amazon, Apple, or Facebook.

A jury of former policy-makers and -advisors chooses the **three most original and implementable memos**. The winners present their ideas in front of high-ranking policy-makers.

Find out more on our **websites** and follow us on **twitter** for updates and more events!

Questions to the competition? **Email** us via pc-techtitans@policychats.fr
